COMBI-SET-100 PCS

Protective elements - description:

Disposable PREMIUM seat cover (The fold-out seat cover)

- Thanks to the exceptional shape of the PREMIUM seat-cover pockets, the seat cover is automatically able to adjust itself to the seat length in the lower and upper part of the seat.
- Very simple handling due to the compact design, the folded size of the seat cover is only 120 cm * 80cm, in use on the seat, the seat cover are able to reach the length of over 140 cm. Thus suitable for all vehicles.
- As the first manufacturer, since 2012 we have been asking for the revolutionary *seat cover fit concept* for the workshop and the automotive industry.
- Optimal material thickness for high tear resistance and elasticity owing to film thickness of $\geq 0,015$ mm.

Disposable Car floor protector

- Combination of absorbent white paper and PE coated underside, prevents soaking through.
- Non-slip, oil and water absorbing. Protection against oil, dirt and water.

Disposable Steering wheel, gear lever and handbrake protector

- Steering wheel protector for steering wheel diameters of 350–400 mm
- Particularly favourable placement owing to sewn in elastic bands.
- Protects controls from dirt.
